The German Perl Workshop takes place in Berlin, from 13th to 15th March. I will give a presentation about our Dancer projects: Wir tanzen um die Welt!. A few tickets for this event are still available, so hurry up!

The week after that, I'm going with Jure to Bern on 22nd March. Damian Conway is there as well, you shouldn't miss his keynote! This is followed by my presentation Dancer Academy - From Zero to Hero.

YAPC::EU in Kiev is from 12th to 14th August 2013. We will submit presentations about topics like Dancer, Template::Flute and Nitesi.

Finally, we are doing a conference about Open Source Ecommerce, Dancer & Perl in Hancock, NY at West Branch Angler Resort on the 9th and 10th October. We already enlisted a couple of good speakers, but we are looking for more presentations. Please send suggestions for for talks and registration to biz@cart.pm. Don't hesitate too long, as the number of participants is limited!
