Stefan Hornburg (Racke)

# Inhaltsverzeichnis

- Command line** **4**
  
- Extensions** **6**
  
- MKP packages** **7**
  - List packages . . . . . 7
  - Remove package . . . . . 7

Repositories: <https://labs.consol.de/repo/stable/>

# Command line

Show host and agent information:

```
cmk -D linuxia.de
```

# Extensions

# MKP packages

The `mkp` command (alias for `cmk -P`) handles MKP extensions on the commandline.

## List packages

```
~# mkp list
```

## Remove package

```
~# mkp remove eximqueue
```
