

Samba/OpenLDAP Cheatsheet

Stefan Hornburg (Racke)

2009-12-03

List domain groups:

```
net groupmap list
```

Adding domain group:

```
smbldap-groupadd -a interchange
```

Adding user to domain group:

```
smbldap-groupmod -m racke interchange
```

Please restart Samba after adding domain groups or adding user to domain groups.
